

**SupaJam's Work Ready Careers
Programme**

September 2023

(Next review date September 2024)

OUR MISSION:

To help vulnerable young people who have previously fallen out of formal education engage, achieve and progress in a unique, inclusive learning environment.

OUR ETHOS:

Our ethos is to be forward thinking, caring and encouraging whilst providing a structured, supportive and non-judgemental environment, allowing all our young people to thrive and achieve to their full potential.

Aims and purpose of the careers programme:

- To encourage our students to creatively explore future options and become curious about the world of work, with regular encouragement, support and positivity and opportunities for new experiences.
- Inspire our students to become confident, independent and motivated to develop their aspirations and take ownership of their career progression.
- To provide a welcoming, inclusive and confidential environment to openly discuss future options and any worries or concerns about career progression.
- Support our students in developing key skills needed for college and beyond including resilience, independence, social communication skills, innovation, leadership and team building.
- To involve parents and carers in supporting students careers progression and development throughout their study programme.
- To provide targeted support to those students who are most at risk of becoming NEET and support in reducing number of early leavers from college.
- To support students in recognising and challenge limiting stereotypes to allow them to break through barriers along their career pathways and progression.
- To provide up to date LMI to provide students with the knowledge as well as the skills needed to make realistic informed decisions about future pathways.

SupaJam have branded the programme 'Work ready' because of the unique opportunities students have to gain real industry experience alongside the delivery careers entwined into the RSL curriculum we deliver here at SupaJam.

There will be 6 key focus points within these areas which will evolve throughout the study programme using blooms taxonomy model to ensure differentiated learning to meet the needs of each students at each level. These 6 key areas have been taken from the new CDI framework for careers education in schools and colleges. These are outlined on the next page. The full guidance can be found here <https://www.thecdi.net/New-Career-Development-Framework>
